

APPENDIX

to the

KANSAS DEPARTMENT OF TRANSPORTATION'S

2025 Annual Report

This appendix contains transportation information involving -

Section A

- Financial Compliance..... 1
- Project Selection Criteria..... 5
- Transportation Revolving Fund..... 9
- Innovative Technology Program 9
- Broadband Acceleration Grant Program..... 9
- Modal Information
 - Public Transportation..... 9
 - Rail Service Improvement Fund..... 10
 - Kansas Airport Improvement Program..... 10
- Federal Fund Exchange Program 11

Section B

- Project list detailing projects currently scheduled for improvement..... B-1

Section C

- Projects completed in FY 2024 C-1

Section D

- Projects under construction..... D-1

Section E

- Projects in the ELTP, with construction bid award of \$5 million or greater E-1

Section F

- Aviation, rail and public transit projects..... F-1

Financial Compliance

Each year, the Department provides financial information to the Governor and Legislature. This information includes both a summary of financial information and a statement of assurance that an Annual Comprehensive Financial Report (ACFR) of all funds for the preceding year has been prepared. The financial report must include a report by independent public accountants attesting that the financial statements present fairly the financial position of the Department in conformity with generally accepted accounting principles (GAAP).

The Department has prepared an ACFR for Fiscal Year (FY) 2024. A report of the independent public

accountants, CliftonLarsonAllen, LLP, is included in the ACFR after audit completion. Also included in the ACFR is a certificate of achievement awarded to the Department for excellence in financial reporting for the FY 2023 ACFR. This award marks the 36th consecutive year that the Department has received the award.

The complete ACFR is available by contacting the Department's Division of Communications at 785-296-3585 (Voice)/(TTY). The FY 2024 ACFR is available under the KDOT Financial Disclosures section of the Department's website at <https://www.ksdot.gov/fiscal-services>.

Information outlining KDOT's FY 2024 financial information and the State Highway Fund are on the following pages.

FY 2024 Financial Information

The following schedule is a summary of revenues and expenditures for all funds for FY 2024. All amounts are in thousands.

	<u>2024</u>	<u>Percent of Total</u>
<u>REVENUES</u>		
Motor Fuel Taxes	\$ 460,399	23 %
Vehicle Registrations and Permits	246,514	12
Intergovernmental	504,805	25
Sales and Use Taxes	723,235	37
Investment Earnings	30,989	2
Other	13,294	1
Transfers from Other State Funds	3,365	0
Total revenues	<u>1,982,601</u>	<u>100 %</u>

EXPENDITURES

Current Operating		
Maintenance	172,787	7 %
Preservation	724,732	30
Modernization	114,013	4

	<u>2024</u>	<u>Percent of Total</u>
Expansion and enhancement	584,874	25 %
Communications system	5,602	1
Local Support	267,608	11
Transportation planning and modal support	151,969	6
Administration	78,109	3
Debt Service		
Right-to-use lease and SBITA principal	3,417	0
Principal	103,415	4
Interest and fees	65,753	3
Transfers to Other State Funds	133,082	6
Total expenditures	<u>2,405,361</u>	<u>100 %</u>
<u>OTHER SOURCES (uses)</u>		
Sale of assets	4,446	27 %
Right-to-use lease initiation and SBITA initiation	12,215	73
Total other	<u>16,661</u>	<u>100 %</u>
Excess (Deficiency) of Revenues and Other Sources Over Expenditures	<u>(406,099)</u>	<u>100 %</u>

Project Selection Criteria

In the past year, the Kansas Department of Transportation's Eisenhower Legacy Transportation Program (IKE) has achieved key milestones in many significant projects. A few examples are:

- Adding 17 highway Modernization and Expansion projects to the IKE Development Pipeline.
- Working towards completion of pre-construction development milestones on pipeline projects such as the northwest K-10 project from I-70 to 6th Street in Douglas County, the U.S. 54 (Kellogg/Avenue) expansion project east of I-35/127th Street and the K-18/I-70 Interchange in Geary County.
- Letting eight IKE Construction Pipeline Modernization and Expansion projects such as the Polk-Quincy viaduct in Topeka, passing lanes on U.S. 400 in Cherokee County.
- Continuing construction on the multiyear U.S. 69 design-build project in Johnson County.
- Completing the first successful Kansas Progressive Design Build project incorporating needed local road improvements to support the new Panasonic battery plant in De Soto.

These projects are part of the Modernization and Expansion core roadway programs. In addition, projects in newly established programs are getting underway. For example, in the Innovative Technologies program, a subcategory of the Modernization core roadway program projects, is addressing fiber and smart technologies installations in various stages of development, from design to construction. Projects focusing on electric vehicle infrastructure are beginning development with new funding made available in the federal Bipartisan Infrastructure Law (BIL).

These new programs highlight KDOT's commitment to continue evolving with the changing needs of transportation identified at both the state and national levels. All the progress in IKE was realized while managing the highest inflation seen in decades, coping with contractions in an already strained workforce and experiencing material shortages.

In addition to progress on these larger-scale projects and new areas, KDOT continues to make strides in maintaining existing roadway and bridge infrastructure with funding levels in IKE set to preserve the existing system. This dedication safeguards our existing infrastructure so it remains in good condition and provides service into the future.

When practical, KDOT will leverage partnerships with local communities for help maintaining our transportation system to obtain the greatest value possible from our resources. Like the previous T-WORKS transportation program, IKE is committed to investing a minimum of \$8 million in all 105 counties in Kansas so all Kansans benefit from IKE. Projects meeting this \$8 million promise will not only be from the core roadway programs of Preservation, Modernization, Expansion and Local Construction, but will also include aviation, transit and rail programs. Information about these other programs are included in this report.

IKE was enacted July 1, 2020, for a 10-year period that concludes on June 30, 2030, and was designed to be flexible and responsive to shifting needs in Kansas transportation. The first priority of the new program was to bring the 18 delayed T-WORKS road projects to construction. This has now been achieved with the last two delayed T-WORKS projects being let this year to at least a single phase of construction.

Now the focus turns to delivering IKE as previously mentioned, and despite many new challenges, the work is progressing. A portion of the IKE program will work to improve the Kansas roadway system by providing some funding for projects in the Modernization and Expansion programs. Projects from these programs will be selected for construction from a pool of development projects to the level of available funding. In addition, KDOT will host Local Consult meetings every two years across the state. KDOT and our local partners will work together to select projects for the initial preliminary development pipeline so there is a continual pool of projects in the development to construction cycle. Local Consult meetings were held in fall 2023 and

will occur again in 2025.

While this strategy results in more projects in the development pipeline than existing funding allows to be constructed, the strategy makes sure there is little lag from development to construction, as funding becomes available. Other benefits of this approach are more efficient use of resources, better leverage of federal funds and the flexibility to respond to emerging needs. Projects will be chosen to advance from the development pipeline based upon factors such as need, level of local support and prevailing economic conditions. Combined, these mechanisms allow our limited resources to be used efficiently and effectively by being directed at projects with the potential to yield the greatest benefit.

Many tools are used by KDOT leadership in the development and execution of a transportation program. One key tool is the 2045 Long-Range Transportation Plan (LRTP), which analyzes trends and issues in transportation and provides possible recommendations. A second tool is the 2022 Transportation Asset Management Plan (TAMP), which provides a detailed assessment of current infrastructure. Together these two tools provide information about current conditions and trending issues affecting transportation for KDOT management in their day-to-day decision-making processes.

To facilitate program management under IKE, KDOT categorizes road and bridge construction projects into four broad groups or core programs of Preservation, Modernization, Expansion and Local Construction. These programs group together construction projects with similar work types and scopes. Projects within each of these major programs are further grouped together based upon similar funding sources or project-types into more specific groups, or subcategories. This organizational structure aids KDOT in managing the transportation program. A list of the programs and respective subcategories is provided before the project lists in this report.

IKE, like the previous transportation programs, continues to use a strategic approach to highway project selection. Under the new approach, multiple strategies are used to evaluate and select projects

including engineering factors, local input and economic impact. One or multiple strategies may be applied depending on the program and what has proven to be most productive.

Larger scale Preservation program construction projects will continue to be selected on a two-year rolling basis. This selection method was implemented under the previous program and provides KDOT with greater programming flexibility, allowing KDOT to respond to changes in economics or need. By continuing to use multiple approaches for project selection, KDOT benefits from increased stakeholder input and support, increased flexibility in project selection and increased maneuverability to respond to the prevailing economic conditions and/or changing roadway conditions.

Engineering factors continue to be the most effective method of evaluating projects in the Preservation program. In the Modernization program, a combination of engineering-based formulas and regional priorities has proven successful. In the Expansion program, economic impacts, along with engineering factors and regional priorities, provide an effective combination for project selection. In all the programs, proposed projects are scored and ranked based upon how well they address the relevant evaluation criterion or criteria of the program. Selections are then made based upon results of the evaluation.

Adding new factors to evaluate Modernization and Expansion program projects helps confirm each is a sound engineering project and that they align with the goals and priorities of a region, and in the case of an Expansion project, provides economic benefits. Project selection for the fourth core program, Local Construction, remains unchanged and is determined at the local level by local entities throughout the state with the coordination of KDOT's Bureau of Local Projects.

Already established engineering-based formulas are used for the Preservation, Modernization and Expansion programs to evaluate project engineering factors. Regional priorities are determined through Local Consult meetings held every other year. KDOT maintains an ongoing dialogue with stakeholders throughout the state through these meetings and the continued interaction between the area and district

engineers with local entities. This enables each KDOT region to react to changing priorities as they arise. The last factor, economic impact, is assessed by the agency through computer modeling. Modeling estimates the potential increases in jobs, income and economic output for a region resulting from a specific transportation improvement.

The following chart illustrates the selection criteria applied to IKE projects in each of the four core programs and the weight given to each criterion.

IKE Project Selection Criteria

Program	Engineering Factors	Regional Priorities	Economic Impact	Other
Preservation	100%			
Modernization	80%	20%		
Expansion	50%	25%	25%	
Local Construction				100%

The Preservation program protects the public’s investment in its highway system by maintaining the “as built” condition of roads and bridges. It includes both larger scale projects such as roadway surfacing rehabilitations, major bridge repairs, full pavement and bridge replacements, to smaller set-aside projects such as minor bridge repairs, resurfacing, patching and seals.

When selecting Preservation projects, the engineering factors relating to pavement and bridge conditions are used, such as remaining rutting and cracking for roads and joints, pavement life or bridge deck condition and/or load ratings for bridges. Roads and bridges are evaluated annually, and projects are selected each year based upon this review. Also within the Preservation program are a group of other set-aside projects that are unrelated to road condition. Instead, they

address safety issues such as signing, pavement markings and railroad crossing surfaces. Set-aside projects are so named because the funds to perform the work are “set aside” or reserved specifically for the type of work in this subcategory. The other set-aside projects are generally federally funded, while the road and bridge set-aside projects are traditionally state funded. Recently, however, federal funds have been applied to some road and bridge set-aside projects.

The road, bridge and other set-aside projects are selected on an annual basis. Since the work involved rarely requires more than one season to complete, the majority of the Preservation projects listed in this report are for work to be performed in fiscal year 2025. Selecting and programming the set-aside projects in the Preservation program on an annual basis allows KDOT to maintain flexibility and responsiveness in their project selection process during IKE.

The second core program, Modernization, focuses on improvements to the existing system. Projects under this program are designed to enhance safety and/or improve roadways by adding shoulders, flattening hills, straightening curves and upgrading intersections on already existing roadways. Modernization development pipeline projects will continue to be selected and developed with some of the selections proceeding to the construction pipeline. The development pipeline will be replenished in state fiscal year 2026 with additions added based upon the decisions made in the 2025 Local Consult meetings.

Also included within the Modernization program are the practical improvement projects, which are developed out of the Preservation program annual review of roads and bridges and the smaller scale set-aside projects. Projects within the practical improvement umbrella are hybrids with elements of both the Preservation and the Modernization programs. However, the projects have greater complexity and scope than Preservation projects, making them a better fit under the Modernization program. In contrast to other Modernization projects,

selection of practical improvement projects is based on need as determined from the annual review of roads. Project scope pertaining to shoulder improvement is an example of the type of work that is a good candidate for the practical improvement approach. By using this approach, a project may be completed in the most cost-efficient manner feasible.

The implementation of this approach enables KDOT to stretch construction dollars and provide the greatest benefit possible for the dollars spent. Projects from the Modernization set aside subcategories address issues such as corridor development, lighting upgrades or replacements and smaller scale safety improvements like turn lane additions or intersection improvements. The set-aside projects, like the practical improvement projects, are selected on an annual basis. A small portion of the designated Modernization funding is reserved to fund the practical improvement projects and set aside projects as they are identified in IKE.

The Expansion program, the third principal core group under IKE, is intended for projects that expand and enhance the transportation system. Projects in this program work to improve capacity by adding new lanes or interchanges, reduce commute time and improve air quality by relieving congestion and enhancing economic development.

As with the Modernization program, Expansion development pipeline projects will continue to be selected and developed with some selections advancing to the construction pipeline. Project selections from the fall 2025 Local Consult meetings are anticipated to be added to the preliminary development pool in fiscal year 2026. In addition to increasing efficiency in the project selection process, it also increases efficiency and allows maximum use of funding, both federal and state, as it becomes available for KDOT to use.

Along with the larger scale Expansion projects, the Expansion program also has smaller improvement subcategories for which a portion of program funding is reserved. Projects in these subcategories include the Cost Share program, the Economic Development program and the Intelligent Transportation Systems set-aside and are typically

not as complex as the pool of Expansion pipeline projects.

As a result, they are managed differently than the larger Expansion projects. The Economic Development projects are selected on an ongoing basis throughout the transportation program as good candidate projects are put forth. The Cost Share program develops projects in a manner similar to the Economic Development program, with project applications accepted on an ongoing basis. Applications are reviewed twice a year, and project selections are made as funding allows. The Intelligent Transportation Systems projects are selected on an annual basis. This ongoing selection process allows KDOT some flexibility in programming the Expansion program by providing KDOT with the ability to respond to new conditions as they arise throughout the 10 years of IKE.

The fourth group, the Local Construction program, addresses improvements to city or county roads. The projects encompassed by this program range from safety oriented to maintenance of existing roadway to small-scale Expansion. Regardless of the project's scope, the common denominator is the work takes place on a city or county road. Many of the subcategories within the Local Construction program, such as the K1R-City Connecting Link, Surface Preservation, CCLIP program and KLBIP program, are partnership programs where KDOT or the federal government work with local entities to share the costs and enable local dollars to stretch further.

Many partnership programs solicit projects through an application process. The pool of project applications is prioritized based upon program specific criteria. Then, projects are evaluated, selected and programmed with the available funding. The schedule for project solicitation varies, but most of the partnership programs solicit projects annually. In other subcategories within the Local Construction program, the local entities are solely responsible for project selection and development. To assist them in the selection process, KDOT makes bridge inspection data, traffic accident data and traffic count data available for their use. In KDOT, the Bureau of Local Projects is a key contact for Local Construction projects.

For more information on the IKE program and projects, visit the IKE website at ike.ksdot.gov. The website includes information that tracks the progress of the \$8 million commitment for every county in the state.

Project Listings

The project listings can be found starting on page B-1.

Transportation Revolving Fund

The Transportation Revolving Fund was a statewide revolving loan fund that provided loans to local units of government for financing road and bridge improvements on and off the State Highway System. Since August 2004, the fund provided 119 executed loans totaling \$141.7 million to 58 cities and counties.

Innovative Technology Program

IKE established the Innovative Technology Program in 2020 to leverage new innovative technology opportunities to better position the state for the future. The program provides financial assistance to partners for innovative technology projects that improve safety, increase total technology investment and improve the overall transportation system.

The definition of innovative technology is relative to the local community of the project to help promote investment in both rural and urban areas. The program accepts applications on an annual basis. The legislation authorizing the IKE Program included the creation of the Transportation Technology Development Fund (TTDF). The TTDF receives a \$2 million transfer from the State Highway Fund each fiscal year. The fund provides assistance with the implementation of new technology and capabilities for all modes of transportation, including,

but not limited to, aviation and highway transportation.

Broadband Acceleration Grant Program

The Broadband Acceleration Grant Program, administered by the Department of Commerce, will expand broadband access to rural and underserved communities across the state. Over the 10 years of IKE, the program seeks to invest \$85 million toward bridging the digital divide in Kansas with broadband modernization funding. There will be \$5 million made available annually over the first three years, with \$10 million annually made available over the following seven years. A maximum of \$1 million per grant will go toward funding projects that provide access to high quality, reliable broadband throughout Kansas, with priority given to applications that address un-served areas, economically distressed communities and areas of compelling need.

Modal Information

Public Transportation

Public transportation in Kansas is supported by a state program and multiple Federal Transit Administration (FTA) funding programs authorized by the FAST Act. KDOT receives \$11 million annually from the State Highway Fund and received \$22.6 million from FTA to administer programs in Fiscal Year 2024.

These funding programs are augmented by local match to provide the funding for 78 rural general public transit service providers, 68 transit providers (that service elderly persons and persons with disabilities) and six urban transit properties. These combined services provide essential transportation services in all areas of the state to

expand, improve and enhance public transportation options. Without these programs, many citizens would have no access to public transportation.

The FTA 49 U.S.C. 5311 program provides capital, planning and operating assistance to states to support rural and small urban (under 50,000 population) transportation projects that serve the general public.

The FTA 49 U.S.C. 5310 program is intended to enhance mobility for seniors and persons with disabilities. It provides funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. Urbanized areas and nonurban areas with populations under 200,000 are eligible for 5310 funds.

FTA 49 U.S.C. 5304 provides funding to support cooperative, continuous and comprehensive planning for making transportation investment decisions statewide and in nonmetropolitan areas.

FTA 49 U.S.C. 5339 provides funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.

Rail Service Improvement Fund

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, providing an alternative to trucks for freight (primarily grain) shippers and keep rural areas of the state connected to the national network and access to national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads.

The Rail Service Improvement Program (RSIP) is administered by KDOT's freight and rail unit. This program makes grant funds available to short line railroads, shippers and other qualifying entities

to be used for major track rehabilitation, capacity improvement and track maintenance projects. Funds may also be used for financing and acquisition activities, and the purchase of rolling stock.

Kansas Airport Improvement Program

Kansas boasts 142 public airports, seven of which offer commercial airline service. Generating over \$9 billion in annual economic output, these airports are the backbone of the state's aviation transportation system, serving the needs of Kansas residents, businesses, educational institutions, air ambulances/emergency medical services, agriculture/firefighting aerial applicators, law enforcement/emergency management, search/rescue and the traveling public.

The Kansas Airport Improvement Program (KAIP) is a funding program administered through KDOT Aviation designed to assist airport sponsors in improving and maintaining the state's system of public-use airports. The primary strategy of KAIP is to preserve and modernize the Kansas airport system through four objectives:

- Maintain the system's runway pavement condition index (PCI) rating at or above 65.
- Minimize surface travel time to air ambulance pick-up locations.
- Improve safety.
- Enhance airport and community economic development appeal.

The program is open to public-use airports in Kansas as defined in K.S.A. 75-5061. The program is funded through the Public Use General Aviation Airport Development Fund, which receives an annual transfer of no less than \$15 million from the State Highway Fund (SHF), a recent increase from \$5 million due to the passage of Kansas HB 2498.

Uncrewed Aerial Systems (UAS)

KDOT Aviation participated in multiple national boards and working groups to provide subject matter expertise and perspective from rural communities to serve organizations such as the Federal Aviation Administration (FAA) and National Association of State Aviation Officials (NASAO). KDOT continues to assist UAS

stakeholders who support FAA research into advanced UAS operations in the National Airspace System (NAS), while still maintaining the highest levels of safety. This work guides future FAA regulations while leveraging the new technology for Kansans. The division continues to lead in the innovative aviation sector as one of eight lead participants in the FAA's BEYOND Program for UAS integration and Beyond Visual Line of Sight (BVLOS) operations in the NAS. The partnerships with academia, state agencies and private sector have produced results in the form of FAA Part 107 waivers for advanced operations that allow KDOT and strategic partners to conduct UAS operations that current regulations do not permit. Additionally, the FAA BEYOND Program will continue to advance the safe integration of UAS into the NAS.

Advanced Air Mobility (AAM)

KDOT Aviation partnered with academia, state and federal agencies, and participated in statewide and national working groups focused on the integration of emerging aviation technologies into the NAS. KDOT Aviation aims to leverage the next generation of aircraft to fill transportation gaps and enhance the Kansas transportation ecosystem.

Federal Fund Exchange Program

The federal fund exchange program is a voluntary program that allows a local public agency (LPA) to trade all or a portion of its federal funding allocation in a specific federal fiscal year with KDOT in exchange for state transportation dollars or with another LPA in exchange for their local funds.

Under this program the LPA may develop projects following local procedures, criteria, and standards. All work performed shall be consistent with the Kansas Statutes, applicable regulations, and normal engineering practices for the work being done. Any work performed on the state highway or city connecting link will require coordination with the local KDOT Area Office.

Only LPAs that are eligible to receive a federal funding allocation may participate in the federal fund exchange program. Eligible LPAs

include all counties in the state and cities with populations greater than 5,000 and less than 200,000 that are not located in a Transportation Management Area (TMA). Currently the only TMAs in Kansas are the Mid America Regional Council (MARC – Kansas City Region) and the Wichita Area Metropolitan Planning Organization (WAMPO).

Participation in the program is optional. An eligible LPA may choose to exchange its federal funds or it may use the funds to develop a federal aid project following the established procedures. Dollars must be used on transportation projects and state fund exchange dollars are paid to the LPA on a reimbursement basis.

In general, KDOT will annually determine the amount of state funds available for exchange at the time the federal funding is confirmed for a federal fiscal year (FFY). KDOT may conduct more frequent reviews of available funding when necessary as a result of funding or budgetary considerations. Around the beginning of each new Federal Fiscal Year (FFY), KDOT's Bureau of Local Projects will notify the LPAs in writing of the amount they are eligible to receive for that FFY.

For more details on this program, see KDOT's website at <https://www.ksdot.gov/local-projects>.

PROJECT LISTINGS

Sections B, C, D, E, F

This section contains the separate project lists required by K.S.A Supp. 68-2315.

The remaining projects are included in these sections - scheduled for improvement in IKE, projects completed in FY 2024, and projects under construction. All lists are organized by county and route. Each project includes a description, project length, construction cost or estimated construction cost and work type. A detailed explanation of the methods employed in the selection of projects is also required and may be found in this appendix in section A.

Additionally, new with ELTP is a list of all projects let to construction for \$5M or greater with the name of the contractor awarded the bid and the winning bid amount. This list is an ongoing list for the duration of the ELTP and new projects that meet the requirement will be added each year.

Along with the state highway construction project information, project lists for the other modes including aviation, rail and public transit are provided.

The project lists are:

- *Remaining projects currently scheduled for improvement in the ELTP, section B-1.*
- *Projects completed in FY 2024, section C-1.*
- *Projects under construction (includes projects from years prior to ELTP), section D-1.*
- *Projects in the ELTP, with construction bid award of \$5 million or greater, section E-1.*
- *Aviation, rail, and public transit projects, section F-1.*

NOTE: This section, as well as previous Annual Reports, is available on KDOT's website at <https://www.ksdot.gov/about/publications-and-reports>.

PROGRAM CATEGORIES

The following is a breakdown of the Programs and Sub-Categories that are shown in the Project Listing.

SM- Preservation--Taking Care of What We Have

1RR- Non-Interstate Resurfacing (PMS 1R)
BCR- Culvert Repair
BSP- Bridge Painting
BSR- Bridge Repair
CMN- Contract Maintenance (PMS)
EMR- Emergency Repair
IRP- Interstate Basic Impr (old RIM split to Preservation)
ISR- Interstate Resurfacing (PMS)
NHP- Miscellaneous for Preservation
PBR- Bridge Replacement/Rehabilitation
PCR- Culvert (to Bridge) Rehabilitation
PDR- Bridge Redeck
PMR- Pavement Marking
RIP- Non-Interstate Basic Impr (old RIM split to Preservation)
RRS- Railroad Crossing Surfacing
SLR- Signing & Lighting Repair and Replacement
SOS- Highway Signing
SRR- State Route Removal Program

MM- Modernization--Safety & Shoulder Improvements

IRS- Resurfacing w/Improvements (Practical Design)
COR- Corridor Management
GFU- Guard Fence Upgrades
GSI- General Safety Improvement Projects
ICT- Innovative Connected Technologies
IRI- Interstate Roadway Geometric Improvements
KCC- KCC Railroad Crossing Projects
LTG- Highway Lighting
MPR- Miscellaneous

MM- Modernization--Safety & Shoulder Improvements

RIM- Non-Interstate Geometric Improvements
SAF- Safety Projects (State)
SBW- Scenic Byway
SSI- Strategic Safety Improvement Program

SE- Expansion/Enhancement--Adding Something New

AAR- Advanced Acquisition of ROW
CSP- Cost Share Program
EDP- Economic Development
IRC- Interstate Capacity Improvement (old IRI split to Expansion)
ITS- Intelligent Transportation Systems (ITS)
RIC- Non-Interstate Capacity Improvement (old RIM split to Expansion)
RSL- Local Partnership Railroad Grade Separations
RSP- New Railroad Grade Separations (State)

LC- Local Construction

HAZ- Safety Projects (HSIP, off-system)
HES- Safety Projects (HSIP, on-system)
K1R- KLINK Surface Preservation
K2R- KLINK Pavement Restoration
K3R- Geometric Improvements for KLINKs
LBT-Local Bridge Transfer Program
LOC- Local Construction (Local Administered & Let)
RES- Local Construction (KDOT Administered & Let)
RRX- Railroad Crossing Protection (HSIP, on-system)
RXR- Railroad Crossing Protection (HSIP, off-system)
SRT- Safe Routes To Schools (Federal)
TEX- Transportation Enhancement Program

Remaining Projects Scheduled for Improvement in (FY 2024-2032)

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const Cost (\$1,000's)	Prog Stg & Subcat	Fiscal Year
Allen		BRIDGE OVER ELM CREEK ON NEBRASKA ROAD LOCATED 0.5 MILE S AND 3.2 MILES W OF MORAN	0.1	Bridge Replacement	569	LC-RES	2025
Allen	U059	US-59 IN ALLEN COUNTY BEGINNING AT THE NEOSHO/ALLEN COUNTY LINE, NORTH TO THE ALLEN/ANDERSON COUNTY LINE	21.2	Ultra Thin Bonded Asphalt Surfacing	3,179	SM-IRR	2025
Allen	U169	US-169: BRIDGE #034 CARRYING TANK ROAD OVER US-169 LOCATED 5.50 MILES NORTHEAST OF THE NEOSHO COUNTY LINE	0.0	Bridge Repair	1,202	SM-BSR	2026
Anderson		BRIDGE OVER TRIBUTARY TO POTTAWATOMIE CREEK ON NEVADA ROAD LOCATED 3.0 MILES N AND 0.5 MILE E OF GARNETT	0.1	Bridge Replacement	576	LC-LBT	2027
Anderson	K031	BRIDGE #019 (POTTAWATOMIE CREEK) ON K-31 IN ANDERSON COUNTY LOCATED 12.76 MILES SOUTHEAST OF THE COFFEY COUNTY LINE	0.0	Bridge Replacement	7,301	SM-PBR	2026
Anderson	K058	K-58 IN ANDERSON COUNTY BEGINNING AT THE COFFEY/ANDERSON COUNTY LINE TO THE US-169/K-58 JUNCTION	8.1	Milling and Overlay	1,620	SM-IRR	2025
Anderson	U059	US-59 IN ANDERSON COUNTY LOCATED AT JUNCTION US-59/US-169	0.0	Intersection Improvement	5,575	MM-SAF	2025
Anderson	U059	US-59 IN ANDERSON COUNTY BEGINNING AT THE ALLEN/ANDERSON COUNTY LINE, NORTH TO THE US-169/US-59 SOUTH JUNCTION	15.1	Milling and Overlay	6,451	SM-IRR	2025
Anderson	U169	US-169 IN ANDERSON COUNTY AT ONE LOCATION BEGINNING AT NE 2370 RD.	0.1	Guard Fence	159	MM-GFU	2027
Anderson	U169	US-169 IN ANDERSON COUNTY BEGINNING AT THE ALLEN/ANDERSON COUNTY LINE, NORTH TO 0.59 MILE NORTH OF THE K-58/US-169 JUNCTION	4.3	Milling and Overlay	986	SM-IRR	2025
Atchison		BRIDGE OVER DEER CREEK ON 314TH ROAD LOCATED 3.5 MILES N OF ATCHISON AND BRIDGE OVER DEER CREEK ON RAWLINS ROAD LOCATED 1.0 MILE W AND 2.4 MILES N OF ATCHISON	0.2	Bridge Replacement	863	LC-LBT	2025
Atchison		BEGINNING AT JUNCTION OF OTTAWA RD AND 262ND RD 2 MILES SOUTH TO 246TH RD	2.0	Grading and Surfacing	1,500	SE-CSP	2025
Atchison		BRIDGE OVER TRIBUTARY TO INDEPENDENCE CREEK ON JEWELL ROAD LOCATED 3.6 MILES N OF LANCASTER	0.1	Bridge Replacement	688	LC-RES	2027
Atchison		VARIOUS STREETS LEADING TO ATCHISON MIDDLE SCHOOL IN THE CITY OF ATCHISON	1.0	Pedestrian and Bicycle Paths	979	LC-SRT	2024
Atchison		CITY OF ATCHISON: UNITY STREET FROM 2ND STREET TO 6TH STREET	0.3	Pedestrian and Bicycle Paths	928	LC-TEX	2026
Atchison		CITY OF ATCHISON: NORTH 5TH STREET FROM SANTA FE STREET TO UNITY STREET	0.5	Pedestrian and Bicycle Paths	757	LC-SRT	2026
Atchison		BRIDGE OVER BREWERY CREEK ON PATRIOT STREET LOCATED 0.1 MILE W OF US-73	0.1	Bridge Replacement	773	LC-RES	2025
Atchison	K116	K-116: FROM CHEYENNE ROAD EAST TO THE WEST U.S. 159 JUNCTION	7.2	Special	6,352	MM-CLZ	2032
Atchison	K116	K-116 IN ATCHISON COUNTY BEGINNING AT THE JACKSON/ATCHISON COUNTY LINE, EAST TO THE US-59/K-116 JUNCTION	16.0	Sealing	586	SM-IRR	2025
Atchison	U059	BRIDGE #003 (STRANGER CREEK DRAINAGE) ON US-59 IN ATCHISON COUNTY LOCATED 3 MILES NORTHEAST OF K-116. BRIDGE #004 OVER 262ND ROAD (RS1290) LOCATED 5.8 MILES NORTHEAST OF K-116	0.0	Bridge Replacement	6,459	SM-PBR	2025
Atchison	U059	US-59 IN ATCHISON COUNTY BEGINNING AT THE ATCHISON/JEFFERSON COUNTY LINE, NORTHEAST TO THE SOUTH CITY LIMITS OF ATCHISON	13.7	Crack Repair	70	SM-CMN	2025
Atchison	U059	SKYWAY HIGHWAY FROM WEST CITY LIMITS TO 800 FEET WEST OF SOUTH 10TH STREET	1.7	Milling and Overlay	1,064	LC-K1R	2025
Atchison	U073	US-73 IN ATCHISON COUNTY BEGINNING AT THE EAST CITY LIMITS OF LANCASTER, NORTH TO THE ATCHISON/BROWN COUNTY LINE	6.6	Milling and Overlay	1,473	SM-IRR	2025

Blanks in the Const. Cost column indicate that the project does not have a construction work phase.

A breakdown of the Program Cat and Subcat column is provided preceding the project lists.

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const Cost (\$1,000's)	Prog Stg & Subcat	Fiscal Year
Atchison	U159	US-159 IN ATCHISON COUNTY BEGINNING AT THE MORTON/STEVENS COUNTY LINE, EAST TO THE CONCRETE AT THE WEST CITY LIMITS OF HUGOTON	10.6	Sealing	418	SM-IRR	2025
Barber		BRIDGE OVER DRIFTWOOD CREEK ON KINGFISHER ROAD LOCATED 3.1 MILES N AND 4.5 MILES W OF HARDTNER	0.1	Bridge Replacement	533	LC-LBT	2025
Barber		SOUTHWEST GYP HILL ROAD FROM 3.5 MILES SOUTH OF US-160 TO US-160	3.5	Guard Fence	421	LC-RES	2026
Barber		BRIDGE OVER SPRING CREEK ON CATALPA ROAD LOCATED 2.8 MILES E OF SHARON	0.2	Bridge Replacement	658	LC-RES	2026
Barber		MEDICINE LODGE: SOUTH OF US-160 AT MEMORIAL PEACE PARK	-	Scenic Or Historic Hwy Progs	500	MM-SBW	2025
Barber	K002	K-2: AT FOUR LOCATIONS BEGINNING 0.57 MILES NORTHEAST OF HAWKINS ROAD, NORTHEAST TO 0.09 MILES SOUTHWEST OF CATALPA ROAD	5.2	Guard Fence	2,141	MM-CLZ	2025
Barber	U160	US-160 IN BARBER COUNTY BEGINNING AT THE BARBER/COMANCHE COUNTY LINE, EAST TO THE WEST EDGE WEARING SURFACE OF BRIDGE #041	22.8	Overlay	3,379	SM-IRR	2025
Barber	U281	US-281 IN BARBER COUNTY BEGINNING AT THE OKLAHOMA/KANSAS STATE LINE, NORTH TO THE US-160/US-281 JUNCTION	23.9	Milling and Overlay	4,502	SM-IRR	2025
Barber	U281	US-281 FROM US-160 TO EL DORADO AVENUE AND EL DORADO AVENUE FROM US-281 TO OAK STREET IN THE CITY OF MEDICINE LODGE	1.3	Pedestrian and Bicycle Paths	500	LC-TEX	2025
Barton		SOUTHWEST QUADRANT OF COUNTY	-	Signing	110	LC-RES	2026
Barton		MAIN STREET FROM SANTA FE BOULEVARD/US 56 TO 2ND STREET IN THE CITY OF ELLINWOOD	0.2	Landscaping And Beautification	1,201	LC-TEX	2025
Barton		CITY OF HOISINGTON: K4 AND N GREEN ST NORTH TO E 11TH STREET AND K4 AND N VINE STREET NORTH TO E 11TH STREET	0.2	Grading and Surfacing	767	SE-CSP	2026
Barton	K004	K-4: AT ONE LOCATION BEGINNING 0.22 MILES EAST OF NE 120 AVENUE	0.2	Guard Fence	328	MM-CLZ	2025
Barton	K004	9TH STREET FROM 100 FEET W OF N MAIN STREET TO 20 FEET W OF SUSANK ROAD	0.2	Grading and Surfacing	1,090	LC-K2R	2026
Barton	K004	K-4: FROM SUSANK ROAD THEN 0.3 MILES EAST TO N CEDAR STREET IN THE CITY OF HOISINGTON	0.3	Pavement Reconstruction	2,730	SM-RIP	2027
Barton	K156	K-156: BRIDGE #007 OVER WALNUT CREEK DRAINAGE LOCATED 1.17 MILES NORTHEAST OF THE US-56 JUNCTION	0.0	Bridge Repair	1,056	SM-BSR	2026
Barton	U056	US-56/MCKINLEY IN GREAT BEND IN BARTON COUNTY	0.0	Traffic Signals	899	LC-HES	2025
Barton	U056	S PATTON ROAD FROM SOUTH CITY LIMITS TO 10TH STREET AND MAIN STREET FROM NORTH END OF BRIDGE TO NORTH OF 2ND STREET	0.2	Milling and Overlay	425	LC-K1R	2025
Barton	U281	W 9TH STREET FROM N CENTER STREET TO N MAIN STREET	0.3	Pavement Reconstruction	2,066	LC-K2R	2025
Barton	U281	US-281 IN BARTON COUNTY BEGINNING AT THE NORTH CITY LIMITS OF GREAT BEND, NORTH TO THE SOUTH CITY LIMITS OF HOISINGTON	8.9	Milling and Overlay	1,783	SM-IRR	2025
Bourbon		BRIDGE OVER TRIBUTARY TO HINTON CREEK ON 60TH STREET LOCATED 5.9 MILES S AND 1.0 MILE W OF UNIONTOWN	0.2	Bridge Replacement	703	LC-RES	2025
Bourbon		0.431 MILES OF EAST NATIONAL AVENUE BETWEEN NATIONAL AVENUE AND THE RAILROAD TRACKS	0.4	Pavement Reconstruction	2,790	SE-CSP	2026
Bourbon	K003	K-3: BRIDGE #029 OVER THE LITTLE OSAGE RIVER LOCATED 1.91 MILES SOUTH OF THE BOURBON/LINN COUNTY LINE	0.0	Bridge Replacement	3,478	SM-PBR	2025
Bourbon	K003	K-3 IN BOURBON COUNTY BEGINNING AT THE CRAWFORD/BOURBON COUNTY LINE, NORTH TO THE K-39/K-3 JUNCTION	3.0	Milling and Overlay	344	SM-IRR	2025

Blanks in the Const. Cost column indicate that the project does not have a construction work phase.

A breakdown of the Program Cat and Subcat column is provided preceding the project lists.

County	Route	Location Description	Length (Miles)	Type of Work	Est FY Const Cost (\$1,000's)	Prog Stg & Subcat	Fiscal Year
Bourbon	K007	K-7: BEGINNING AT THE CRAWFORD/BOURBON COUNTY LINE NORTH TO 0.4 MILE SOUTHWEST OF U.S. 69 (INCLUDES LITTLE PAWNEE CREEK DRAINAGE BRIDGE #030)	10.3	Grading, Bridge and Surfacing	17,678	MM-RIM	2025
Bourbon	K031	K-31 IN BOURBON COUNTY BEGINNING AT THE K-31/K-65 JUNCTION, NORTH TO THE BOURBON/LINN COUNTY LINE	1.8	1.5 Overlay	574	SM-IRR	2026
Bourbon	U054	E WALL STREET FROM US-69 TO CALDWELL STREET	0.5	Grading and Surfacing	2,692	LC-K3R	2026
Bourbon	U069	US-69 SOUTHBOUND LANES IN BOURBON COUNTY BEGINNING AT SOUTH JUNCTION US-69/US-54, NORTH TO THE BOURBON/LINN COUNTY LINE	12.9	3in Overlay	14,191	SM-RIP	2026
Bourbon	U069	BRIDGE #009 (US-54) LOCATED AT THE SOUTH JUNCTION OF US-54 AND US-69 IN FORT SCOTT	0.0	Bridge Repair	1,553	SM-BSR	2025
Bourbon	U069	US-69 IN BOURBON COUNTY FROM 23RD STREET IN FORT SCOTT, NORTH TO THE US-69/US-54 JUNCTION	2.1	Crack Repair	82	SM-CMN	2025

Pratt	Replace the Ceilometer on the AWOS	\$36,000.00	\$40,000.00	\$4,000.00
Cook Airfield /Crosswinds	Pavement Maintenance Materials	\$22,500.00	\$25,000.00	\$2,500.00
Rush Center /Rush County	Taxilane Pavement Repairs	\$44,200.00	\$52,000.00	\$7,800.00
Satanta	Drill a Water Well for the Airport	\$45,000.00	\$50,000.00	\$5,000.00
Smith Center	(Design) Pavement Repairs of Taxilanes East of the Apron	\$66,500.00	\$70,000.00	\$3,500.00
Smith Center	(Construction) Pavement Repairs of Taxilanes East of the Apron	\$252,000.00	\$280,000.00	\$28,000.00
Syracuse-Hamilton	Crack Seal Runway 13/31	\$23,850.00	\$26,500.00	\$2,650.00
Ulysses/Grant County	(Design) Fencing along the Northwest side of the Airport	\$66,500.00	\$70,000.00	\$3,500.00
Ulysses/Grant County	(Construction) Fencing along the Northwest side of the Airport	\$337,500.00	\$375,000.00	\$37,500.00
Wellington	Repalce Rotating Beacon	\$11,700.00	\$13,000.00	\$1,300.00
Wichita /Jabara Airport	Design and Construction of a Chain-Link Fence, East Side of the Field	\$360,000.00	\$400,000.00	\$40,000.00
Winfield /Strother Field	Pavement Repairs around T-Hangars North of Terminal	\$225,000.00	\$250,000.00	\$25,000.00
Benton/Stearman Field	AGIS Survey for Safety Critical Data	\$80,750.00	\$85,000.00	\$4,250.00
Rose Hill/Cook Field	Design: RWY17/35 Widening	\$104,500.00	\$110,000.00	\$5,500.00

Rail Service Improvement Program

Many areas of the state no longer have service from Class I railroads. Short line railroads provide rail service to such areas, providing an alternative to trucks for freight (primarily grain) shippers and keep rural areas of the state connected to the national network and access to national and international markets for Kansas grains and products. This alternative provides competition and helps keep shipping rates down. It also reduces the number of trucks that would otherwise be on Kansas roads and highways. This in turn avoids increased maintenance and rehabilitation costs for those roads. The Rail Service Improvement Program (RSIP) is administered by KDOT's freight and rail unit. This program makes grant funds available to short line railroads, shippers and other qualifying entities to be used for major track rehabilitation, capacity improvement and track maintenance projects. Funds may also be used for financing, acquisition activities and the purchase of rolling stock.

Included in the list below are projects completed in FY 2024, projects currently in progress and projects with signed agreements.

Project Number	Rail Line Segment	Grant Amount	Project Description
1 RA-5432-22	Monarch Cement	\$ 2,100,00.00	Siding Construction
18 RA-5432-22	South Kansas and Oklahoma Railroad	782,118.00	Replace Nine Switches Winfield Yard, 286K
28 RA-2122-22	Garden City Western Railway	307,513.00	Rail Line Rehabilitation
62 RA-3335-22	KYLE Railroad	1,440,000.00	Rail Replacement, 286K
63 RA-5431-22	South Kansas and Oklahoma Railroad	619,564.00	Rail Line Rehabilitation, Rail Replacement, 286K
79 RA-3313-22	Bestifor Farms	664,756.00	Siding Construction
80 RA-2925-22	Producer Ag	1,625,169.00	Loop Track Construction
91 RA-3324-22	The Scoular Company	421,918.00	Siding Construction
106 RA-2931-22	Kansas and Oklahoma Railroad	955,500.00	Rail Line Rehabilitation, 286K
62 RA-3311-22	KYLE Railroad	700,000.00	Rail Line Rehabilitation, Rail Replacement, 286K
19 RA-8893-23	The Scoular Company	580,098.44	Siding Rehabilitation and Expansion
20 RA-3108-23	Hi-Plains Cooperative Association	276,716.90	Siding Rehabilitation, Rail Replacement
25 RA-8054-23	South Kansas and Oklahoma Railroad	700,000.00	Rail Line Rehabilitation, Rail Replacement, 286K
28 RA-8021-23	Garden City Western Railway	395,850.00	Rail Line Rehabilitation, Rail Replacement, 286K
