Stover Road Bridges over U.S. 24

Project Information and Timeline

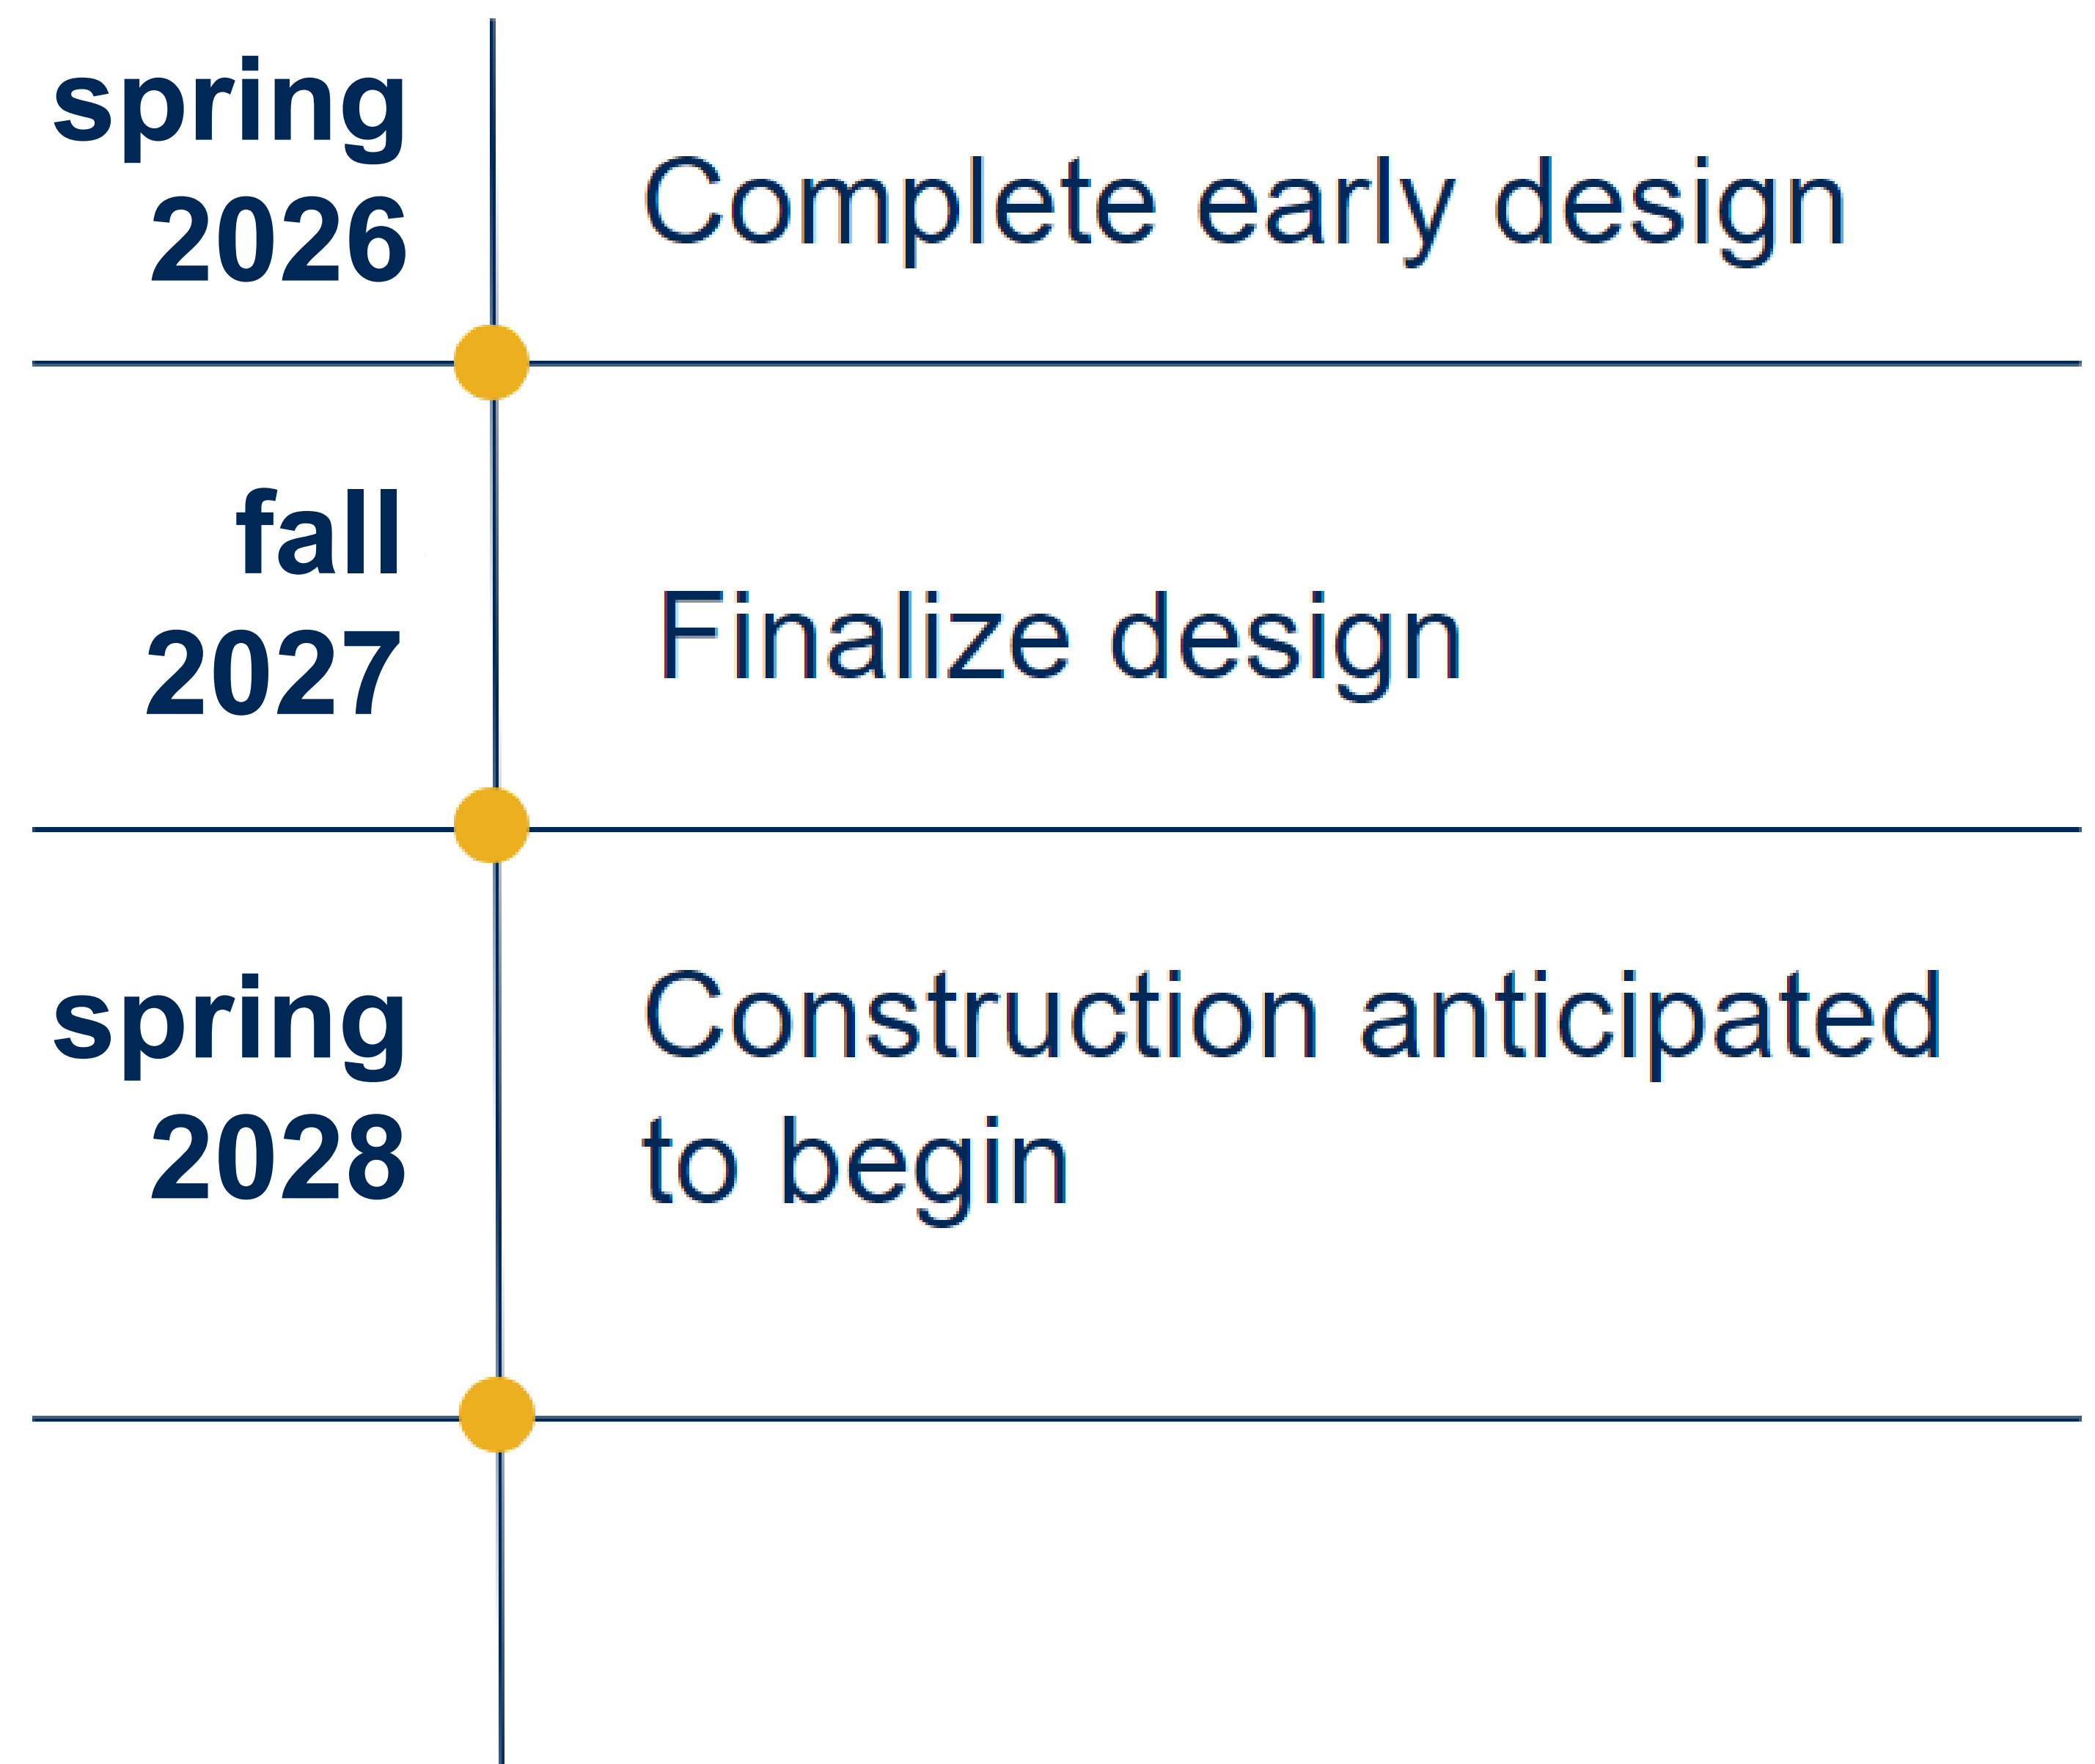

This project includes:

- Roadway and bridge design
- Traffic analysis and modeling
- A Transportation Management Plan
- Community engagement

The benefits of this project include:

- Additional clearance under bridges
- Fully paved shoulders
- Reduction of future maintenance needs
- Enhanced safety and connectivity to local homes, businesses, and community locations

Project anticipated Project Timeline:

U.S. 24 Improvements Project Overview and Location

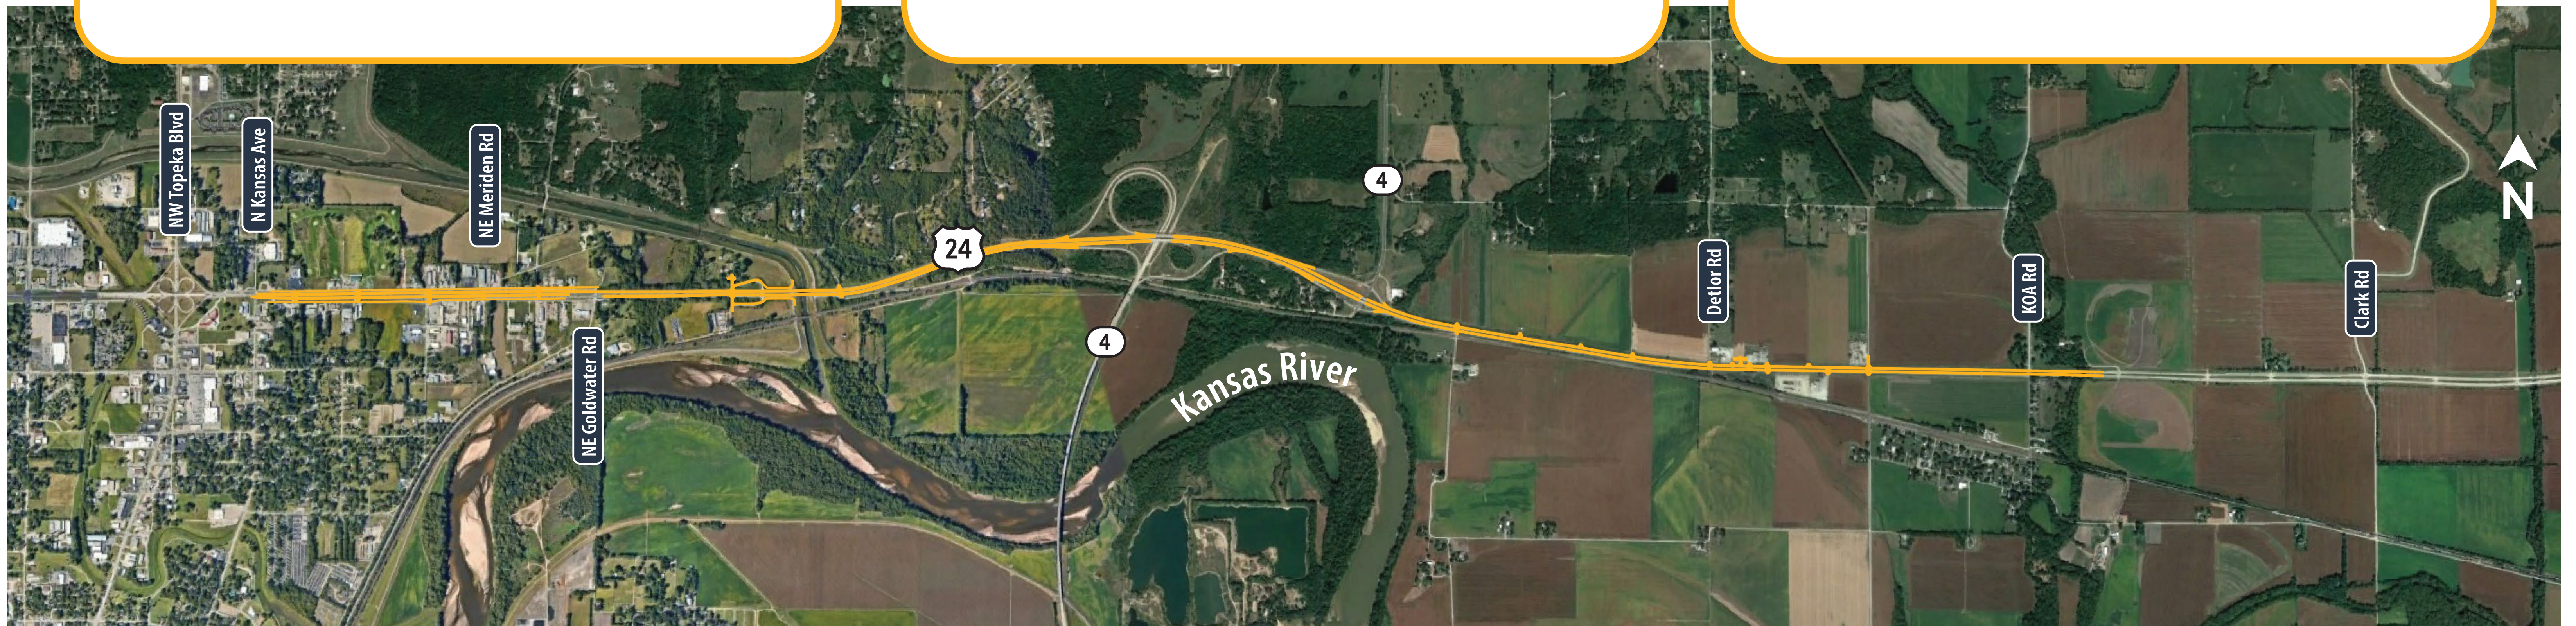

The U.S. 24 Improvements Project includes pavement replacement and other improvements along U.S. 24 between Kansas Avenue in north Topeka and Muddy Creek in Jefferson County.

Work started in 2023 and is expected to be complete in 2027.

U.S. 24 and Kansas Avenue
(one signalized intersection)

U.S. 24 and Meriden Road
(two offset intersections)

**U.S. 24 and
Goldwater Road**

U.S. 24 Improvements project location and major urban intersections

U.S. 24 Improvements Project Benefits

This section along U.S. 24 interchange is expected to remain primarily for commercial and industrial land uses. Project benefits include:

Planned Safety Improvements

Improvements are expected to reduce conflict points along U.S. 24 by approximately 70%.

Improved Access

The project's design will allow efficient access to businesses along U.S. 24 while maintaining traffic flow.

Economic Development Opportunities

Enhancements to medians and along the frontage roads could encourage additional investments for commercial, industrial, or residential uses along this important area corridor.

KDOT's IKE Transportation Program

The IKE Program (2020-2023) has delivered:

PRESERVATION

- \$1.7 billion in preservation projects
- 5,200 roadway miles improved
- 250 bridges improved

HIGHWAY EXPANSION + MODERNIZATION PROJECTS

- \$2.1 billion in Construction Pipeline
- \$723 million constructed or under construction
- 23 projects in Development Pipeline

ECONOMIC DEVELOPMENT

- \$87 million in program investments
- \$5.4 billion in capital investment statewide
- More than 10,000 jobs created

In 2023, KDOT awarded more than \$127 million to fund local projects to improve Kansas airports, bridges, rail, roadways and broadband infrastructure.

U.S. 24 Improvements Project Timeline

2023 CONSTRUCTION PHASE 1: Frontage roads along U.S. 24

Construction began in July 2023 and is expected to last four construction seasons.

- Reconstruct existing adjacent frontage road
- Maintain two lanes on U.S. 24 each direction

Timeline subject to change

2024 CONSTRUCTION PHASE 2 U.S. 24 from west of Kansas Avenue to Goldwater Road

- Utilizes frontage roads as the shoo-fly detour during construction of U.S. 24
- Frontage roads will be split with westbound traffic using the north frontage road, and eastbound traffic using the south frontage road
- Kansas Avenue traffic will be detoured during this season

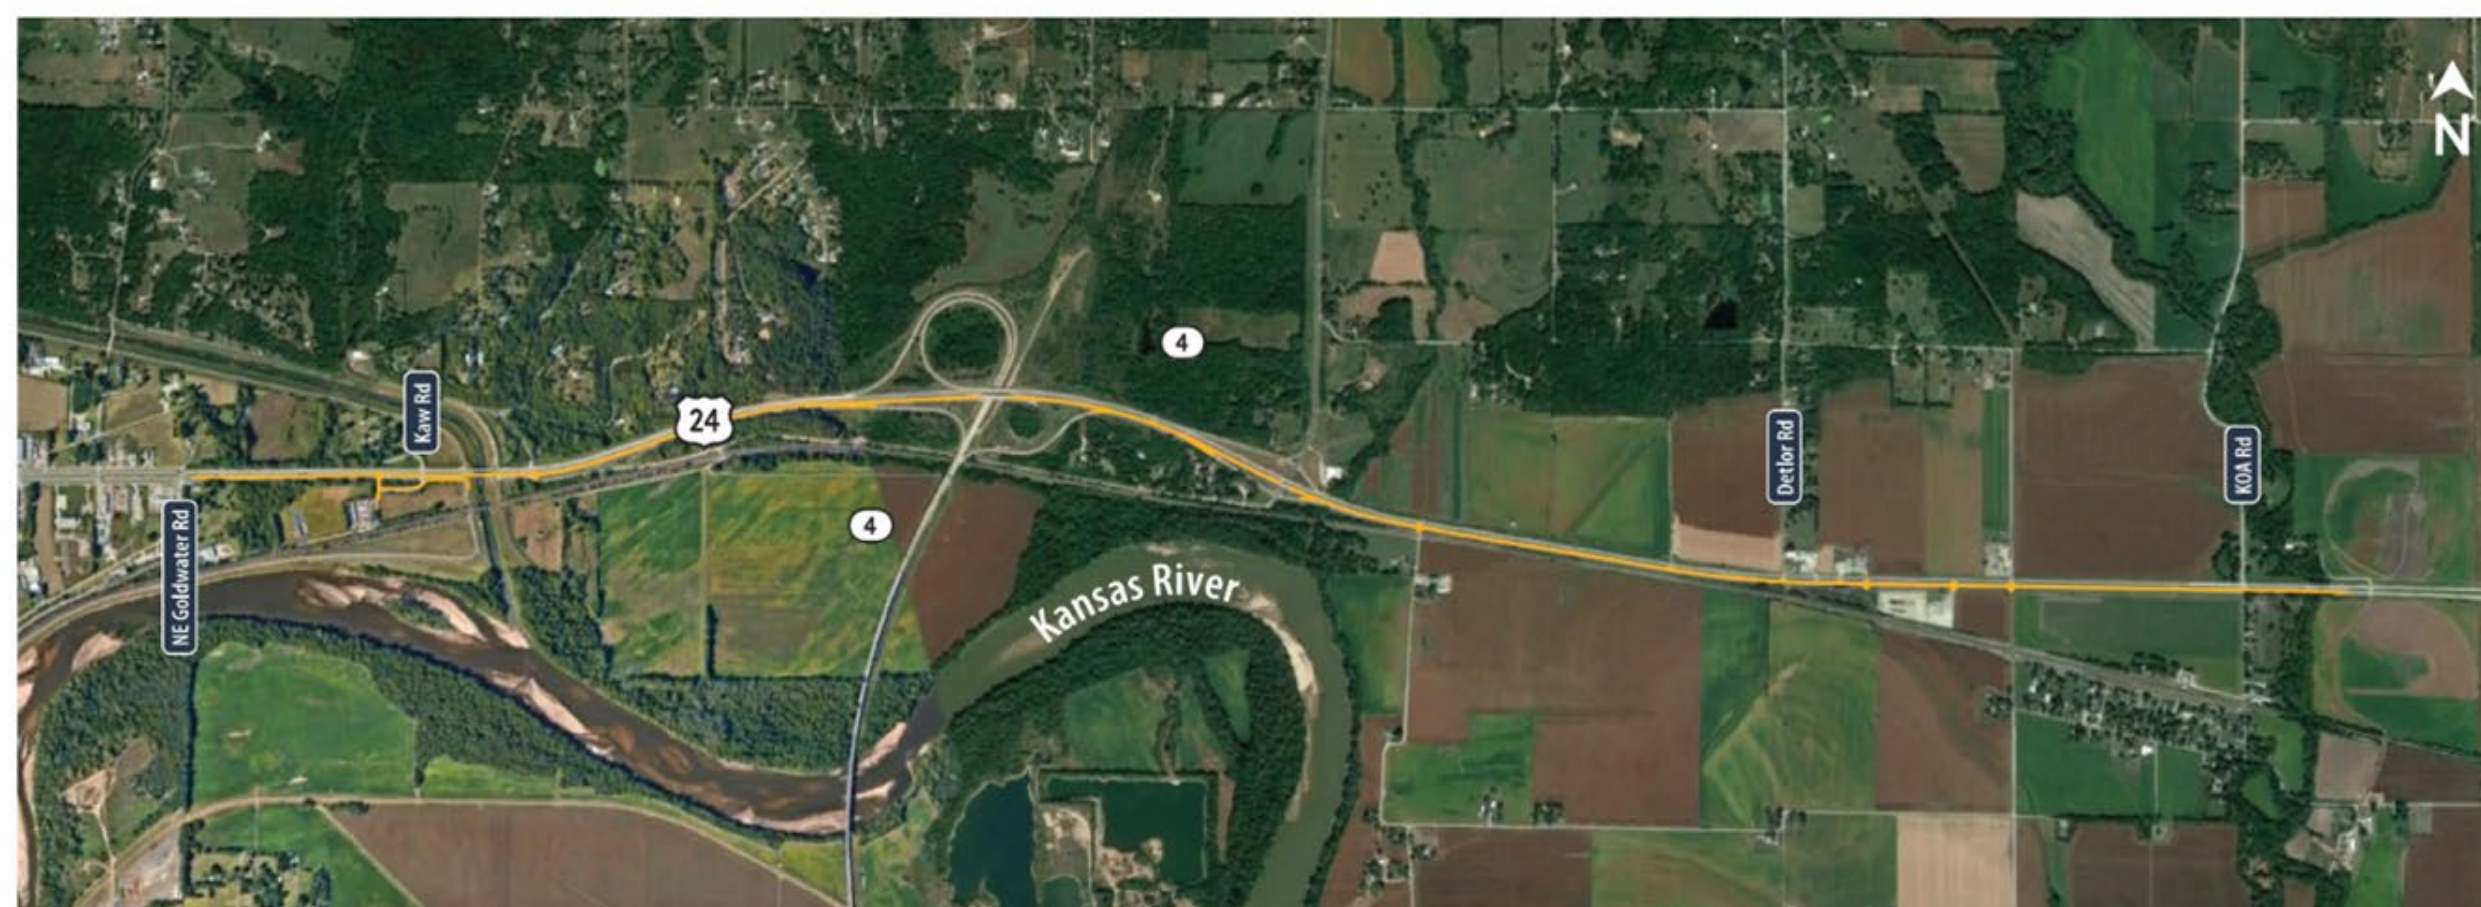

Timeline subject to change

2025 CONSTRUCTION PHASE 3 & 4: Eastbound U.S. 24 construction from Goldwater Road to Muddy Creek

Construction began in July 2023 and is expected to last four construction seasons.

- Kaw Road south of U.S. 24 will be detoured during this season
- Select U.S. 24 and K-4 ramps will be closed and detoured during this season

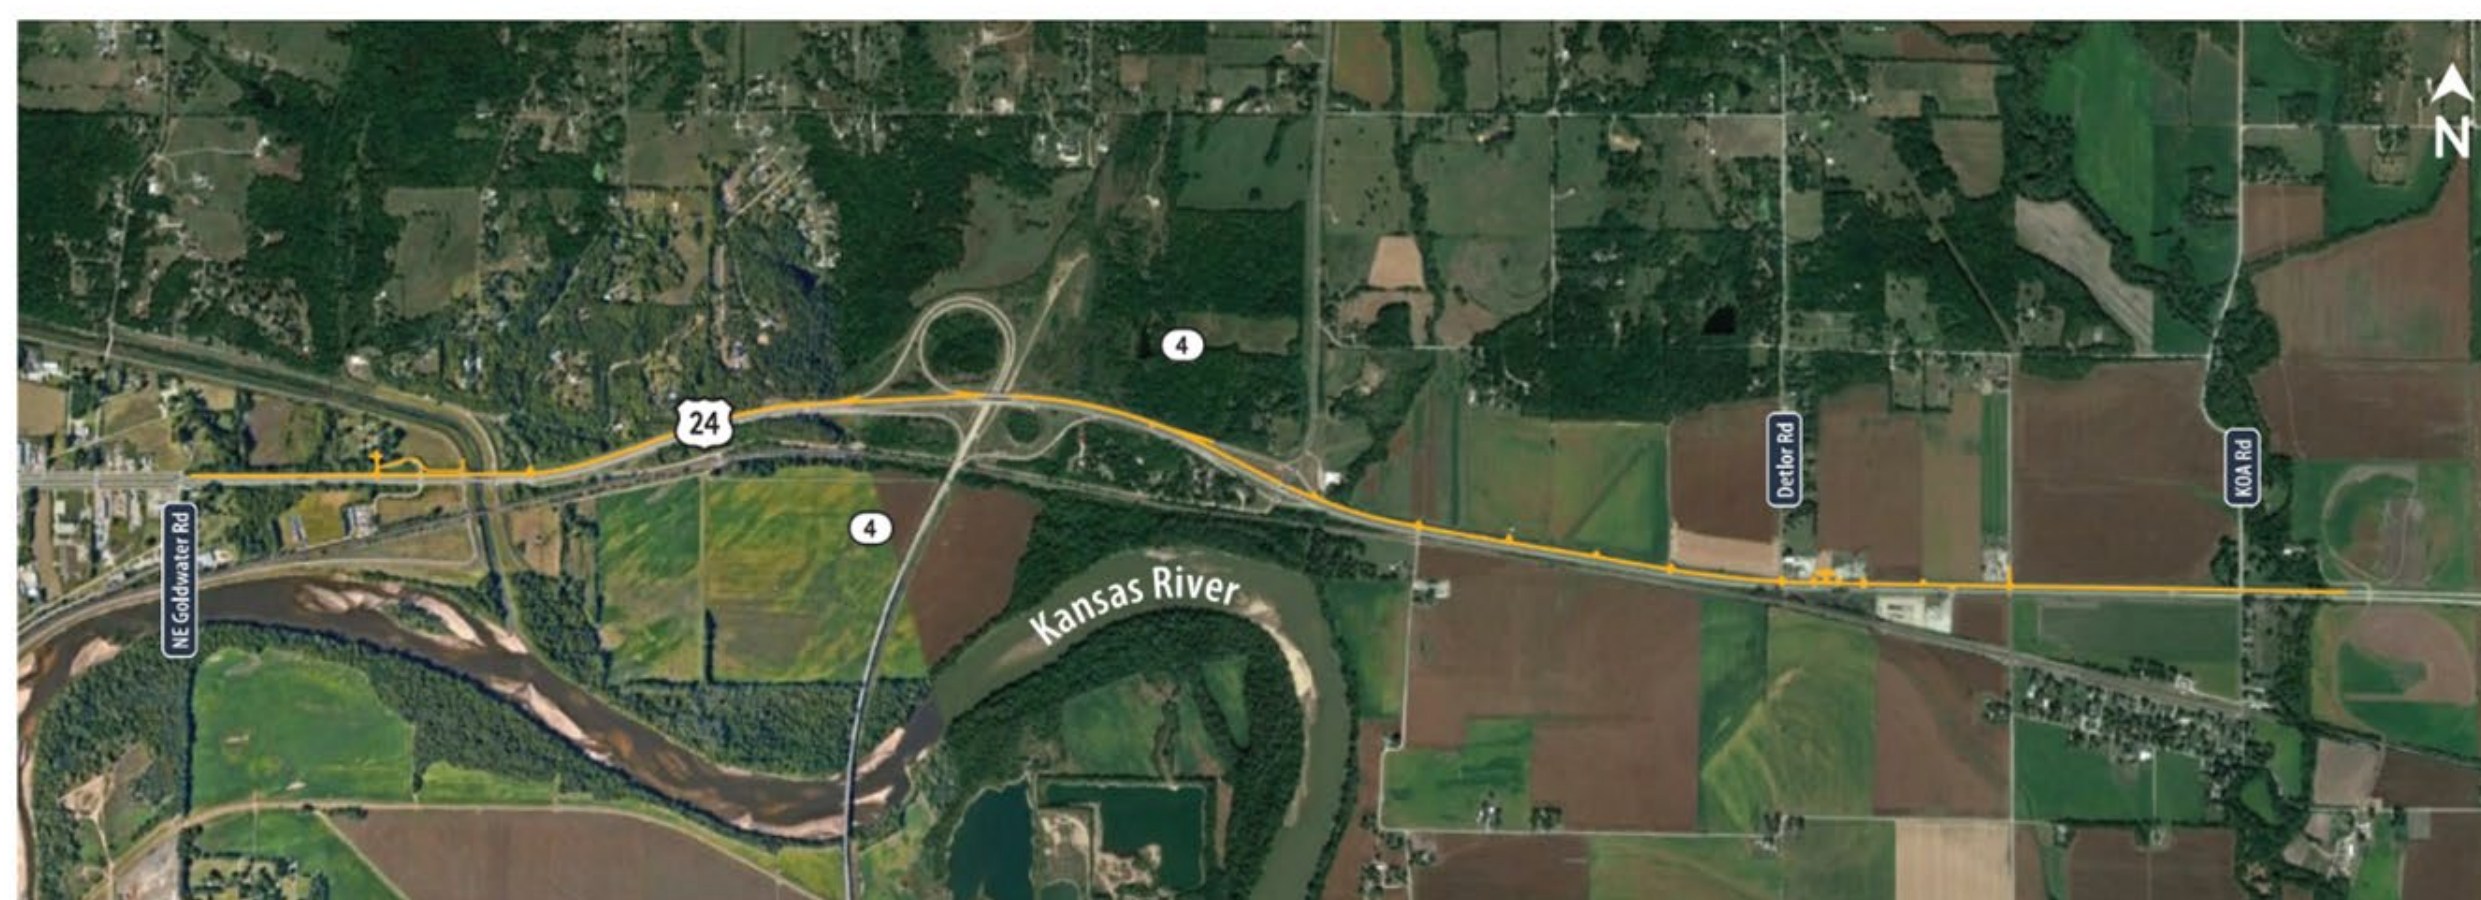

Timeline subject to change

2026 CONSTRUCTION PHASE 5: Westbound U.S. 24 construction from Goldwater Road to Muddy Creek

Construction began in July 2023 and is expected to last four construction seasons.

- Select U.S. 24 and K-4 ramps will be closed and detoured during this season

Timeline subject to change
