

Traffic Signals

- There are too many traffic signals.
- Signals cause traffic to back up.
- Red light running happens.
- It takes too long to make a turn.
- Signal timing is either too long or too short.

Traffic Flow

- There are too many stops, leading to stop and go traffic.
- Freight access to/from local businesses is difficult.

Intersection Layout

- Lack of turn lanes.
- It is difficult to maneuver intersections.
- Some intersections do not accommodate freight traffic well.
