0 1 2 MILES

Annual Average Daily Traffic (AADT)
Traffic Counts Recorded in FY 2001 (July 2000 - June 2001)
Highway Alignments Updated as of July 1, 2001

LEGEND

- OVER 10,000 ——— TOTAL VOLUME
- 7,500 - 10,000 ——— HEAVY COMMERCIAL VOLUME
- 5,000 - 7,499 ——— AUTOMATIC TRAFFIC RECORDER
- 2,500 - 4,999 ——— VEHICLE CLASSIFICATION LOCATION
- 1,000 - 2,499 ———
- UNDER 1,000 ———

The traffic counts shown on this map represent estimates of the Annual Average Daily Traffic (AADT) for the year ending June 30, 2001. These AADT's are derived primarily from 24-hour traffic volumes recorded with portable, cumulative traffic counters. These short-period counts are adjusted for the day of the week and seasonal variations using data from 69 continuous Automatic Traffic Recorders. An axle correction factor has been applied to each short-period count. A minimal amount of smoothing has been applied where large unexplained changes in traffic volumes were observed.

Heavy commercial volumes were derived from 24 or 48-hour visual or machine vehicle classification counts. These count locations are indicated by a check mark on the map. Heavy commercial AADT's for other locations are estimated from nearby counts on the same route or on other routes judged to have similar traffic characteristics.
