Annual Average Daily Traffic (AADT)
Traffic counts recorded in FY 2005 (July 2004 - June 2005)
Highway alignments updated as of November 1, 2005

LEGEND

OVER 10,000		TOTAL VOLUME
7,500 - 10,000		HEAVY COMMERCIAL VOLUME
5,000 - 7,499		AUTOMATIC TRAFFIC RECORDER
2,500 - 4,999		VEHICLE CLASSIFICATION LOCATION
1,000 - 2,499		
UNDER 1,000		

The traffic counts shown on this map represent estimates of the Annual Average Daily Traffic (AADT) for the year ending June 30, 2005. These AADT's are derived primarily from 24-hour traffic volumes recorded with portable cumulative traffic counters. These start-period counts are adjusted for the day of the week and seasonal variations using data from 80 continuous Automatic Traffic Recorders. An axis correction factor has been applied to each start-period count. A minimal amount of smoothing has been applied where large unexplained changes in traffic volumes were observed.

Heavy commercial volumes were derived from 24 or 48 hour visual or machine vehicle classification counts. These count locations are indicated by a check mark on the map. Heavy commercial AADT's for other locations are estimated from nearby counts on the same route or on other routes judged to have similar traffic characteristics.
