Annual Average Daily Traffic (AADT)
Traffic Counts Recorded in FY 2010 (July 2009 - June 2010)

LEGEND

—	Over 10,000	1000	Short-term Counter
—	7,500 to 10,000	1000	Vehicle Classifier
—	5,000 to 7,500	1000	Continuous Counter
—	2,500 to 5,000	2600	Total Volume
—	1,000 to 2,500	300	Heavy Commercial Volume
—	Less than 1,000		

The traffic counts shown on this map represent estimates of the Annual Average Daily Traffic (AADT) for the year ending June 30, 2010. These AADT's are derived mainly from 24-hour volumes recorded by portable traffic counters. These short-term counts are adjusted for day-of-week and seasonal variations using data from 81 continuous permanent counters. An axle correction factor has been applied to each short-term count. Heavy commercial volumes are derived from short-term vehicle classification counts. These count locations are indicated by bold numbers on the map. Heavy commercial counts at other locations are estimated from nearby counts on the same route or from other routes known to have similar traffic characteristics. AADT's that are provided by continuous counters are underlined.
